5.11 – Development of pedagogic material

Almost all of my teaching at ISCTE-IUL aims at connecting teaching and research activities (theoretical and empirical, national and international), trying to train the students in the practice of political and social research. Thus, several of the books, book chapters and articles presented above are used in the classes for that purpose. Moreover, I have produced several *booklets* with both the data gathering instruments (questionnaires, interview protocols, etc.) and the datasets themselves.

5.11.1 – Development of pedagogic material (I): reference books

Several of the following books I authored or edited are used as reference books in my classes, namely in the following courses *Comparing Political Systems; Societies and Political Systems in Europe; Laboratory of Comparative Politics; Electoral Systems and Behaviour; Political Attitudes and Behavior; Elections, Parties and Political Representation*:

Freire, André (editor) (2012), *O Sistema Político Português, séculos XIX-XXI: Continuidades e Rupturas*, Coimbra, Almedina, three editions 2012, 2013, 2014.

Freire, André (2001), *Modelos do Comportamento Eleitoral: Uma Breve Introdução Crítica*, Oeiras, Celta.

5.11.2 – Development of pedagogic material (II): booklets and website with data

I have produced several *booklets* with both the data gathering instruments (questionnaires, interview protocols, etc.) and the datasets themselves, making them freely available to students, professors, researchers and the community at large (journalists, politicians, ordinary citizens, etc.):

Freire, André, José Manuel Leite Viegas e Filipa Seiceira (organizadores) (2009), *Representação Política em Portugal. Inquéritos e Bases de Dados*, Lisboa, Sextante.

Freire, André, M.C. Lobo, P.C. Magalhães, e Ana Espírito Santo (2005), *Comportamentos e Atitudes Políticas: Inquéritos e Bases de Dados, 1973-2002*, Lisboa, ICS/Imprensa de Ciências Sociais.

More recently, within the research project «Elections, Leadership and Accountability», I created a website where I not only make available the data gathering

instruments (questionnaires, interview protocols, etc.) but also the datasets themselves.

Since 2000, when I proposed the affiliation of ISCTE-IUL in the ICPSR network, I have been the *Official Representative* of ISCTE-IUL at ICPSR (*Inter University Consortium for Political and Social Research*), *Michigan University*, Ann Arbor, USA. This infrastructure is the largest social science data bank world wide and makes available several surveys (like for example *European Social Survey*, *European Election Study*, *Comparative Study of Electoral Systems*, *International Social Survey Programme*, *World Values Survey*, *European Values Study*, etc., etc.), which are very usefull both for teaching and for research.
